

FuZzCasT CONFIDENTIAL

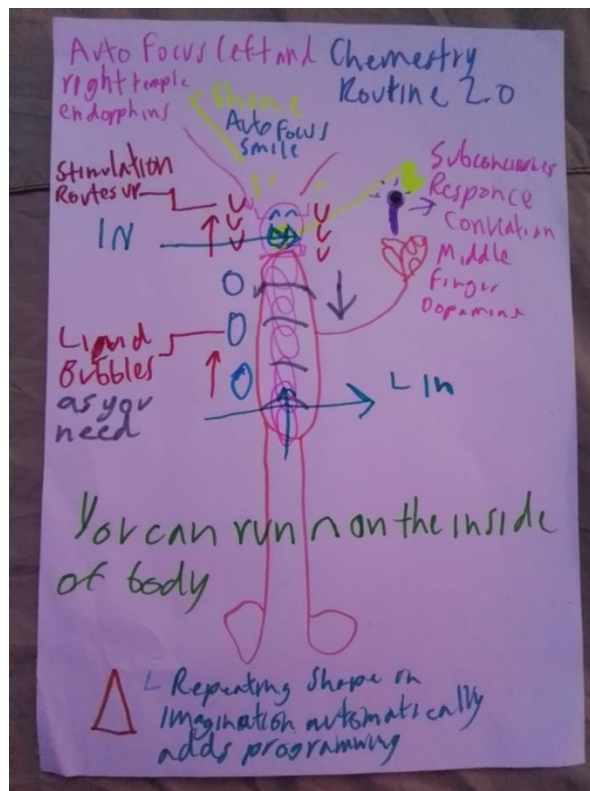

Written by Michael Korber and Astral Plane Channeled Information

ABOVE TOP SECRET

Main formula (which I use too)

There is a secret formula for following Comprehensions and Control if you get amnesia from having a disability. Only put psychological plus important information and symbols papers on the wall, only look at Comprehensions and Control Chemistry procedures if you need to fight back.

See if the brain gives you an ability but remember you do not need to write too many down because there is enough to play with at fuzzcast.com (updates at random). That will give your ability fight the headache using rocking and action strategically to further enable the excitement longer for example a video game. Have negative symptoms of schizophrenia and not sure what to do? Behold! This keeps your excitement and capacity up enough to keep doing a video game activity. If the negative symptoms stop the activity from working you can use the shape and flash it respectively with or without a sound.

This is all you need and will no longer require to psychically interact with your body using your hands! This is the ultimate! With this the power is yours!

Top secret! If you have just woken up for the day your brain may be unable to function good enough then focus on the right and left temple and pump automatically by focusing between. Use a shape with a circle and square moving if the brain stops you too.
